Easy
Access

One-stop shop for connecting
to AMS-IX remotely

About **AMS-IX**

AMS-IX is a neutral member-based association that operates multiple interconnection platforms around the world. Our leading platform in Amsterdam has been playing a crucial role at the core of the internet for more than 25 years and is one of the largest hubs for internet traffic in the world.

Connecting to AMS-IX ensures customers such as internet service providers, telecom companies and cloud providers that their global IP traffic is routed in an efficient, fast, secure, stable and cost-effective way. This allows them to offer low latency and engaging online experiences for end-users.

Interconnection

You want to connect to AMS-IX but you are not located in one of our PoPs? We have the solution for you!

With EasyAccess, you can connect remotely to our Amsterdam peering platform from 350+ locations in Europe.

EasyAccess is a one-stop shop bundling IP transport and AMS-IX peering port into one competitive package: one price, one contract, one dedicated contact person.

Once connected, you will enjoy all the benefits of a standard AMS-IX connection: reducing connectivity costs whilst improving the performance of your network, over the secure and direct lines of our platform.

Why connect?

1 **One-stop shop**
Connection through a robust third-party carrier network, with only one contract to manage.

Reduced costs
No investment in physical equipment needed.

Increased network redundancy
By using multiple third-party carrier networks to transport your data to Amsterdam, redundancy is safeguarded.
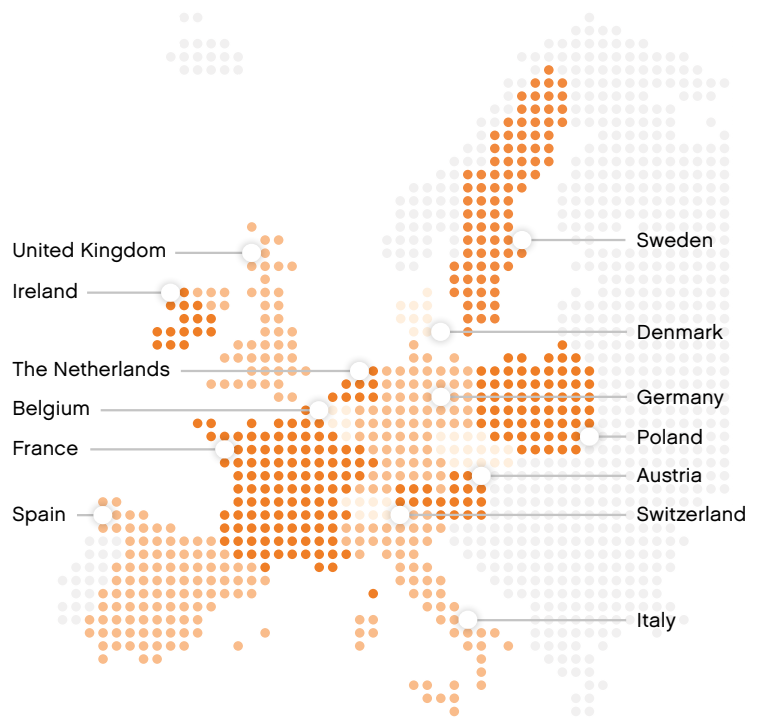

Improved network performance
Access to multiple networks through one single connection.

Where to connect?

370+ enabled Data Centres

United Kingdom
Ireland
The Netherlands
Belgium
France
Spain

Sweden
Denmark
Germany
Poland
Austria
Switzerland
Italy

Port speeds

1 Gbps · 2 Gbps · 5 Gbps · 10 Gbps

Pricing

We pre-negotiated the best prices with multiple third-party carriers. Based on your chosen location, we will provide you with a quote.
