About AMS-IX

At AMS-IX, we believe in the power of collaboration and innovation. We have been operating at the core of the Internet successfully for over 25 years. Today, we continue to leverage these strengths to stay at the forefront of changes within the Interconnection market.

We are a non-profit, member-based association operating six independent Internet Exchanges around the world: in Amsterdam, Bay Area, Caribbean, Chicago, Hong Kong and Mumbai. With our innovative platforms, cutting-edge technology and dedicated engineers, we deliver high quality interconnection services to a wide range of businesses worldwide. These include internet service providers, mobile operators, content providers, hosting and cloud providers, TV broadcasters, gaming companies and financial enterprises. Together, we form a strong ecosystem allowing internet end-users to enjoy fast, stable, and cost-effective online experiences.

Let's start your own Internet Exchange
